

Old Lane Sewer Expansion Project

Update June 10, 2022

The day is finally upon us! As you may see, the contractor has mobilized equipment and materials and is set to begin prep work on Monday, June 13th.

The contractor has met with the Police Department to arrange for traffic control for Tuesday's anticipated groundbreaking at 9:00 am. Work shall begin at the intersection of Valhalla Road and Old Lane Extension.

Please remember to have your wooden stakes placed in your yard where you want the sanitary sewer cleanout to be located. This is where the contractor will run the pipe to your property.

Additional information can be found on the Old Lane Sewer Expansion Project webpage at www.montvillenj.org. This link will take you to the Fact Sheet, Design Drawings, and much more. <http://montvillenj.org/429/Old-Lane-Sewer-Expansion-Project>

You may see various utility companies, Montville Township's Water & Sewer Department included, continuing to complete the required mark-outs of the construction area. Prior to any excavation, the contractor must make notification to all affected utilities of their plan to excavate, including date, area, and reason.

By law, the contractor may not excavate until all utilities are marked. The markings will be seen as paint marks on the hard surfaces and possibly flags on the softer surfaces. There is a color code to the mark outs depending on the utility involved.

Any questions or concerns can be communicated through the Old Lane Project email address, OldLaneSewer@montvillenj.org, or you can also speak directly with the Water and Sewer Director, David Kirkham, at (973) 331-3330.
