Dear Old Lane Sewer Expansion Project Participant,

Construction has begun! Materials have finally arrived and the contractor has started at the Valhalla and Old Lane Extension intersection, and is proceeding uphill to Abbott Rd next.

Our contractor recently provided a wooden stake that will serve as the marker for the installation location of the sanitary sewer cleanout. The cleanout location establishes the boundary between your property and the public Right-of-Way. It also indicates the location where your private plumber should bring the connection from your house.

Please select a spot four (4) feet from the edge of the pavement that will be ideal for the location of the cleanout. Ideal locations include grassy or planted areas away from trees that also align with the sewer connection coming from your house. It is recommended that you consult with your sewer line installation contractor for placement of the stake.

It is vital that you have the stake in place on your property.

Any questions, please email: OldLaneSewer@montvillenj.org, or you can reach the Water and Sewer Director at 973 331-3330.

Sincerely,

David Kirkham

Director, Water and Sewer
