## Montville Township Drug Take-Back Program

Safely dispose of expired or unwanted prescription and over-the-counter medicines.

Eliminating unused and unwanted medications from your home helps to keep your family and community safe. By properly disposing of your prescriptions, you are contributing to the safety and well-being of our community's youth from accidental exposures and intentional misuse. The abuse of prescription and over-the-counter medications are on the rise, due in part to these drugs being easily accessible in homes. According to the 2006 National Survey on Drug Use and Health (NSDUH), more than 2.1 million teens ages 12 to 17 reported abusing prescription drugs.

Environmental safety is also important. By properly disposing of these toxic medicines, we are protecting our environment and working towards reducing our carbon footprint.

You are now able to drop these items anonymously into a safe and secure receptacle in the lobby of the Public Safety Building, where they will be disposed of according to safety and environmental standards.

Clean out your medicine cabinet today!

Aimee Puluso, Health Officer  
Montville Health Department
